

Seminar: Japan - Europe Cooperation Opportunities in Research: Funding, Mobility and Support

Learn about research opportunities in Europe, Japan and between the two

KEK, EURAXESS Links Japan, the EU Delegation to Japan and Jeupiste will discuss of the necessity of international cooperation in research. They will also provide you with an overview of the European research landscape and collaboration possibilities.

Get insights from researchers mobile between Europe and Japan

Learn from the experience of two researchers who have been active in both Europe and Japan. Discuss the positive aspects of mobility, gain insights on working conditions in different environments and tips to obtain grants!

Make new contacts in the international research community!

Free event open to PhD students, post-docs, young, senior researchers and research administrators from all fields!
